

## Note

Spare bodies available from the Sindelfingen Plant are provided with a prime coating and unsanded. Condition at delivery corresponds as a rule to the latest date of series design.

The closing washers and rubber plugs, in addition to various other small parts, are included in a cellophane bag with each spare body. Their place of application is shown in Fig. 1.

## Installation of Small Parts Supplied in Bag

Due to the system of immersion priming used, the bodies are provided with a number of paint runoff holes, which must be closed again with closing washers and rubber plugs. A large number of these closing washers and rubber plugs are already installed in spare body.

The holes which are still open are plug holes and must be closed upon painting and subsequent cavity preservation.

# 60.1 Complete Spare Body, Unfinished

Item	Designation	Part No.	Place of Application	Each
1	Closing washer	113 987 00 44	Cross member front, shell rear left and right	2
2	Closing washer	113 987 00 44	Reinforcement on front wall	7
3	Closing washer	110 987 12 44	For closing through holes on headlamp cup left and right	2
4	Rubber plug	111 987 12 15	For paint drain hole in headlamp cup left and right	2
5	Sleeve	111 997 12 81	For water runoff in headlamp cup left and right	2
6	Closing washer	113 987 00 44	For closing holes in side member outside front bottom left and right	2
7	Closing washer	113 987 00 44	For side member outside shell inside left and right	20
8	Rubber plug	111 987 12 15	In cover supporting bearing left and right	4
9	Rubber plug	110 987 00 39	For floor under occasional seat left	1
10	Rubber plug	111 987 12 15	For floor under occasional seat left and right	4
11	Closing washer	110 987 05 44	For floor under occasional seat right	1
12	Closing washer	113 987 00 44	For closing holes in cross member under occasional seat	9
13	Closing washer	113 987 00 44	For sealing holes in main floor left and right	4
14	Closing washer	113 987 00 44	For closing holes in rear floor above cross member	2
15	Rubber plug	110 987 00 39	For rear floor left and right	2
16	Closing washer	113 987 00 44	For closing hole in cross member rear	1
17	Closing washer	113 987 00 44	For closing holes in side member rear in trunk compartment left and right	4
18	Rubber plug	111 987 12 15	For holes in spare wheel recess	3
19	Closing washer	113 987 00 44	For mounting supporting bearing left and right	4
20	Closing washer	113 987 00 44	For closing holes in side member rear bottom right	3
21	Sleeve	111 997 12 81	For water drain in spare wheel recess	1
22	Closing washer	113 987 00 44	For side member outside rear bottom left and right	2
23	Closing washer	115 987 04 44	For closing oblong holes in side member left and right	4
24	Cap	113 683 01 10	For closing paint drain holes in spare wheel recess	2
