

Revision: Note added.

Note

If outside mirror changes its position by itself, remove mirror, lift rubber cover and tighten clamping screw on adjusting mechanism as required.

Removal

Mirror glass

- 1 Remove glass from ball socket by means of a plastic wedge and pull out laterally (Fig. 1).

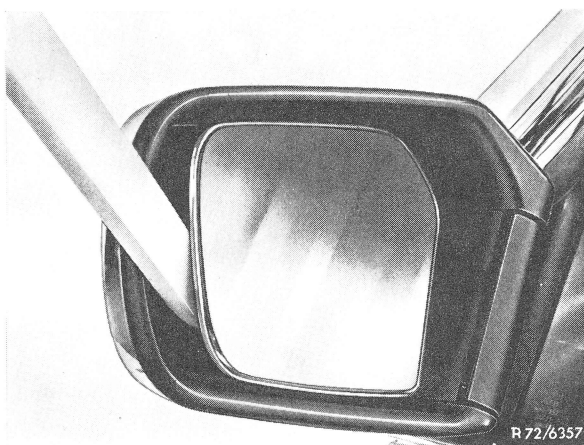

Fig. 1

Complete outside mirror

- 2 Disconnect door lining at top from clips (Fig. 2).

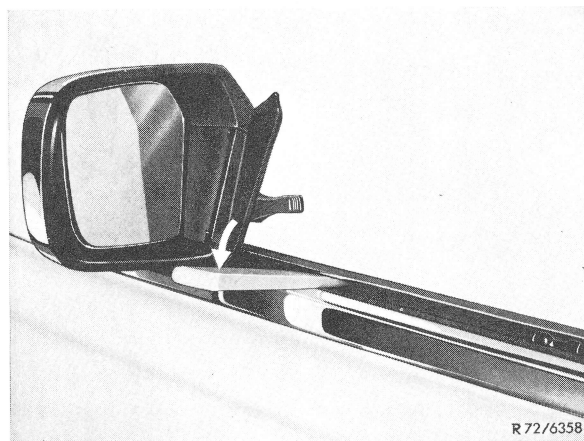

Fig. 2

- 3 Push lock washer (1) out of handle (2) in direction of arrow.
