Engine Oils

Engine oils are specifically tested for their suitability in our engines. Therefore, use only engine oils recommended by MERCEDES-BENZ. Information on recommended brands is available at your authorized MERCEDES-BENZ dealer.

Brake Fluid

During vehicle operation, the boiling point of the brake fluid is continuously reduced through the absorption of moisture from the atmosphere. Under extremely hard operating conditions, this moisture content can lead to the formation of bubbles in the system thus reducing the system's efficiency.

The brake fluid must therefore be replaced annually, preferably in the spring.

It is recommended to use only brake fluid approved by MERCEDES-BENZ. Your authorized MERCEDES-BENZ dealer will provide you with additional information.

Premium Unleaded Gasoline

Caution!

To maintain the engine's durability and performance, premium unleaded gasoline must be used. If premium unleaded is not available and low octane fuel is used, *follow these precautions:*

- have the fuel tank filled only partially with unleaded regular and fill up with premium unleaded as soon as possible,
- avoid full throttle driving and abrupt acceleration,
- do not exceed an engine speed of 3000 rpm, if the vehicle is loaded with a light load such as two persons and no luggage,
- do not exceed $^2/_3$ of maximum accelerator pedal position, if the vehicle is fully loaded or operating in mountainous terrain.
